GROTTO's Dividends and Requirements

- Through GROTTO Branding, executives will experience quality product lines and a cultural emergence via cultural trade missions and market driven events, and
- We have programming agendas to help validate returns through our matrix of global access brand protocols for verification of sustainable product (s).
- Letter of Intent LOI from buyers and producers offers;
- Valid bulk purchase order and confirmed Letter of Credit;
- Receipt of deposit for values of market (s) investment;
- Initiate logistical operations for export.

Future Business & Business Scale

Expansion:

- Qualification of small/medium producers for exportation;
- Business corridor with partners in North/South America;
- Support for the promotion of new business in Brazil and,
- Development of premium and exclusive products for GROTTO.
